

- **Mozilla Thunderbird - Windows**

1. Clique em "Tools", "Account Settings".

2. Clique em "Add Account". Escolha "E-mail account" e clique em "Next".

3. Preencha o seu nome e o endereço de e-mail. Clique em "Next".

The image shows a screenshot of a software dialog box titled "Account Wizard". The window has a standard Windows-style title bar with a close button (X) in the top right corner. Below the title bar, the word "Identity" is displayed in a bold font. The main area of the dialog contains the following text: "Each account has an identity, which is the information that identifies you to others when they receive your messages." followed by "Enter the name you would like to appear in the 'From' field of your outgoing messages (for example, 'John Smith')." Below this is a label "Your Name:" followed by a text input field containing the word "Nome". The next line of text says "Enter your email address. This is the address others will use to send email to you (for example, 'user@example.net')." Below this is a label "Email Address:" followed by a text input field containing "email@dominio". At the bottom of the dialog, there are three buttons: "< Back", "Next >", and "Cancel".

4. Escolha o tipo de servidor (**POP** ou **IMAP**). Em "Incoming Server" preencha **pop.dominio** e clique em "Next".

The image shows a screenshot of a Windows-style dialog box titled "Account Wizard". The window has a blue title bar with a close button (X) in the top right corner. Below the title bar, the text "Server Information" is displayed in bold. The main area of the dialog is light gray and contains the following text and controls:

- The instruction: "Select the type of incoming server you are using."
- Two radio buttons: "POP" (which is selected) and "IMAP".
- The instruction: "Enter the name of your incoming server (for example, 'mail.example.net')." followed by a text input field labeled "Incoming Server:" containing the text "endereço do servidor de recebimento".
- The instruction: "Uncheck this checkbox to store mail for this account in its own directory. That will make this account appear as a top-level account. Otherwise, it will be part of the Local Folders Global Inbox account." followed by a checked checkbox labeled "Use Global Inbox (store mail in Local Folders)".
- The instruction: "Your existing outgoing server (SMTP), 'smtp.orium.com.br', will be used. You can modify outgoing server settings by choosing Account Settings from the Tools menu."

At the bottom of the dialog, there are three buttons: "< Back", "Next >", and "Cancel".

5. Em "Incoming User Name" preencha o login com seu e-mail completo e clique em "Next".

The image shows a screenshot of a software dialog box titled "Account Wizard". The window has a blue title bar with a close button (X) in the top right corner. Below the title bar, the text "User Names" is displayed in a bold font. The main area of the dialog is light gray and contains the following text: "Enter the incoming user name given to you by your email provider (for example, 'jsmith')." Below this text is a text input field with the label "Incoming User Name:" and the value "email@dominio.com.br" entered. Underneath the input field, there is another line of text: "Your existing outgoing (SMTP) username, 'teste@orium.com.br', will be used. You can modify outgoing server settings by choosing Account Settings from the Tools menu." At the bottom of the dialog, there are three buttons: "< Back", "Next >", and "Cancel".

6. Preencha o nome da conta e clique em "**Next**" e clique em "**Finish**" para finalizar.

**Account Wizard** [X]

**Account Name**

Enter the name by which you would like to refer to this account (for example, "Work Account", "Home Account" or "News Account").

Account Name:
